

ANNEXATION REPORT

Dated: March 2017

Prepared for:
City Commission City of Cedar Key, Florida

INTRODUCTION

This report has been prepared to provide information relating to the annexation of all unincorporated land located in Sections 19, 20, 21, 28, 29, 30, 31 & 32, Township 15 South, Range 13 East, and the North ½ of Section 5, Township 16 South, Range 13 East, Levy County, Florida. This area will be herein referred to as the "Annexation Area", and is shown in an Exhibit attached. This area consists of 211 parcels of land. The entire annexation area is within unincorporated Levy County, Florida. The map set forth on the following page illustrates the area under consideration, which totals approximately 1,838.65 acres, (inclusive of submerged lands). The Cedar Key Water and Sewer District provides water and sanitary utility service to this area.

STATUTORY REQUIREMENTS

Chapter 171, Florida Statutes (F.S.), outlines the process for an involuntary annexation, as well as prerequisites for an area to be annexed. Section 171.043, F.S., provides as follows:

171.043 Character of the area to be annexed. A municipal governing body may propose to annex an area only if it meets the general standards of subsection (1) and the requirements of either subsection (2) or subsection (3).

(1) The total area to be annexed must be contiguous to the municipality's boundaries at the time the annexation proceeding is begun and reasonably compact, and no part of the area shall be included within the boundary of another incorporated municipality.

(2) Part or all of the area to be annexed must be developed for urban purposes. An area developed for urban purposes is defined as any area which meets any one of the following standards:

(a) It has a total resident population equal to at least two persons for each acre of land included within its boundaries;

(b) It has a total resident population equal to at least one person for each acre of land included within its boundaries and is subdivided into lots and tracts so that at least 60 percent of the total number of lots and tracts are 1 acre or less in size; or

(c) It is so developed that at least 60 percent of the total number of lots and tracts in the area at the time of annexation are used for urban purposes, and it is subdivided into lots and tracts so that at least 60 percent of the total acreage, not counting the acreage used at the time of annexation for nonresidential urban purposes, consists of lots and tracts 5 acres or less in size.

(3) In addition to the area developed for urban purposes, a municipal governing body may include in the area to be annexed any area which does not meet the requirements of subsection (2) if such area either:

(a) Lies between the municipal boundary and an area developed for urban purposes, so that the area developed for urban purposes is either not adjacent to the municipal boundary or cannot be served by the municipality without extending services or water or sewer lines through such sparsely developed area; or

(b) Is adjacent, on at least 60 percent of its external boundary, to any combination of the municipal boundary and the boundary of an area or areas developed for urban purposes as defined in subsection (2).

The purpose of this subsection is to permit municipal governing bodies to extend corporate limits to include all nearby areas developed for urban purposes and, where necessary, to include areas

which at the time of annexation are not yet developed for urban purposes whose future probable use is urban and which constitute necessary land connections between the municipality and areas developed for urban purposes or between two or more areas developed for urban purposes.

The Annexation Area is contiguous to the City limits, is reasonable compact and lies within no other municipality. Therefore, the proposed annexation area meets the standards required by Section 171.043(1), F.S. to be eligible for annexation.

Excluding the submerged lands within the Annexation Area, the entire area is almost 100% developed as either residential or non-residential subdivided parcels. We can conclude the area is urbanized under 171.043(2)(c).

EXISTING AND FUTURE LAND USES

The area to be annexed has County land use designations of Residential, Public, Natural Reservation and Forestry/Rural Residential. There is one parcel with a Commercial designation. The City will keep the same land use designations as assigned by the County until such time as the City's Future Land Use Map is amended to incorporate the Annexation Area. Most of the Annexation Area lies within the County's Municipal Services District for Cedar Key. A copy of the County's land use map for the Cedar Key Municipal Services District is attached as an Exhibit. It is not anticipated that development density regulations will be changed.

MUNICIPAL SERVICES

Electric, Water and Wastewater Services:

The utility infrastructure is already in place to serve the proposed Annexation Area. Water, Wastewater, and Electricity transmission facilities are already readily available in this area. Electric service is provided by Central Florida Electric Cooperative. Potable Water and Wastewater Services are already provided throughout the entire Annexation Area by the Cedar Key Water and Sewer District, with distribution and collection lines already in place. Ample capacity is available to serve any possible increase in water and wastewater service demand. Current usage for water is 35% of system capacity. Current usage for wastewater is 50% of system capacity.

Solid Waste:

Garbage collection within the Annexation Area is provided by Waste Pro, who also provides collection services within the City. If annexed, these services will be offered to the annexation area under the same rates and terms as the remainder of the City. The provisions of 171.062(4) will not apply to this annexation.

Police Services:

The City will provide Police Services to the Annexation Area, if annexed. Analysis of service call records indicate that the City Police Department is already responding regularly to calls in the unincorporated area. Such procedure is not in accordance with existing mutual aid protocol and will need to be reviewed if the annexation does not occur. It is not anticipated that the annexation will affect the City budget for police services.

Fire Protection:

If annexed the City will provide fire protection services. The City currently provides fire protection services for the Annexation Area under an interlocal agreement with the County. The interlocal agreement is subject to annual approval by both City and County; therefore, there is no guarantee that City provided fire services will continue if the annexation does not occur. Property owners within the area enjoy low fire insurance premiums because of the level of service provided by the Cedar Key Fire Department.

Emergency Services:

Currently, the City Fire Department provides First Responder Services, (BLS), and the County provides Ambulance/EMT Services, (ALS), within the Annexation Area. The First Responder Services by the City are provided pursuant to the interlocal agreement for fire protection services, which is subject to annual approval by both City and County; therefore, there is no guarantee that City provided First Responder services will continue if the annexation does not occur.

Right-of-way Maintenance:

Under Florida law, maintenance responsibilities for streets and rights of way depend on ownership. County owned roads are maintained by the County; City owned roads are maintained by the City. Annexation does not change the ownership of roads. The City and the County are in discussions regarding an interlocal agreement to govern maintenance responsibilities for the streets, roads and other government property within the boundaries of the City, to be implemented if the annexation is successful.

Post-Disaster Activities:

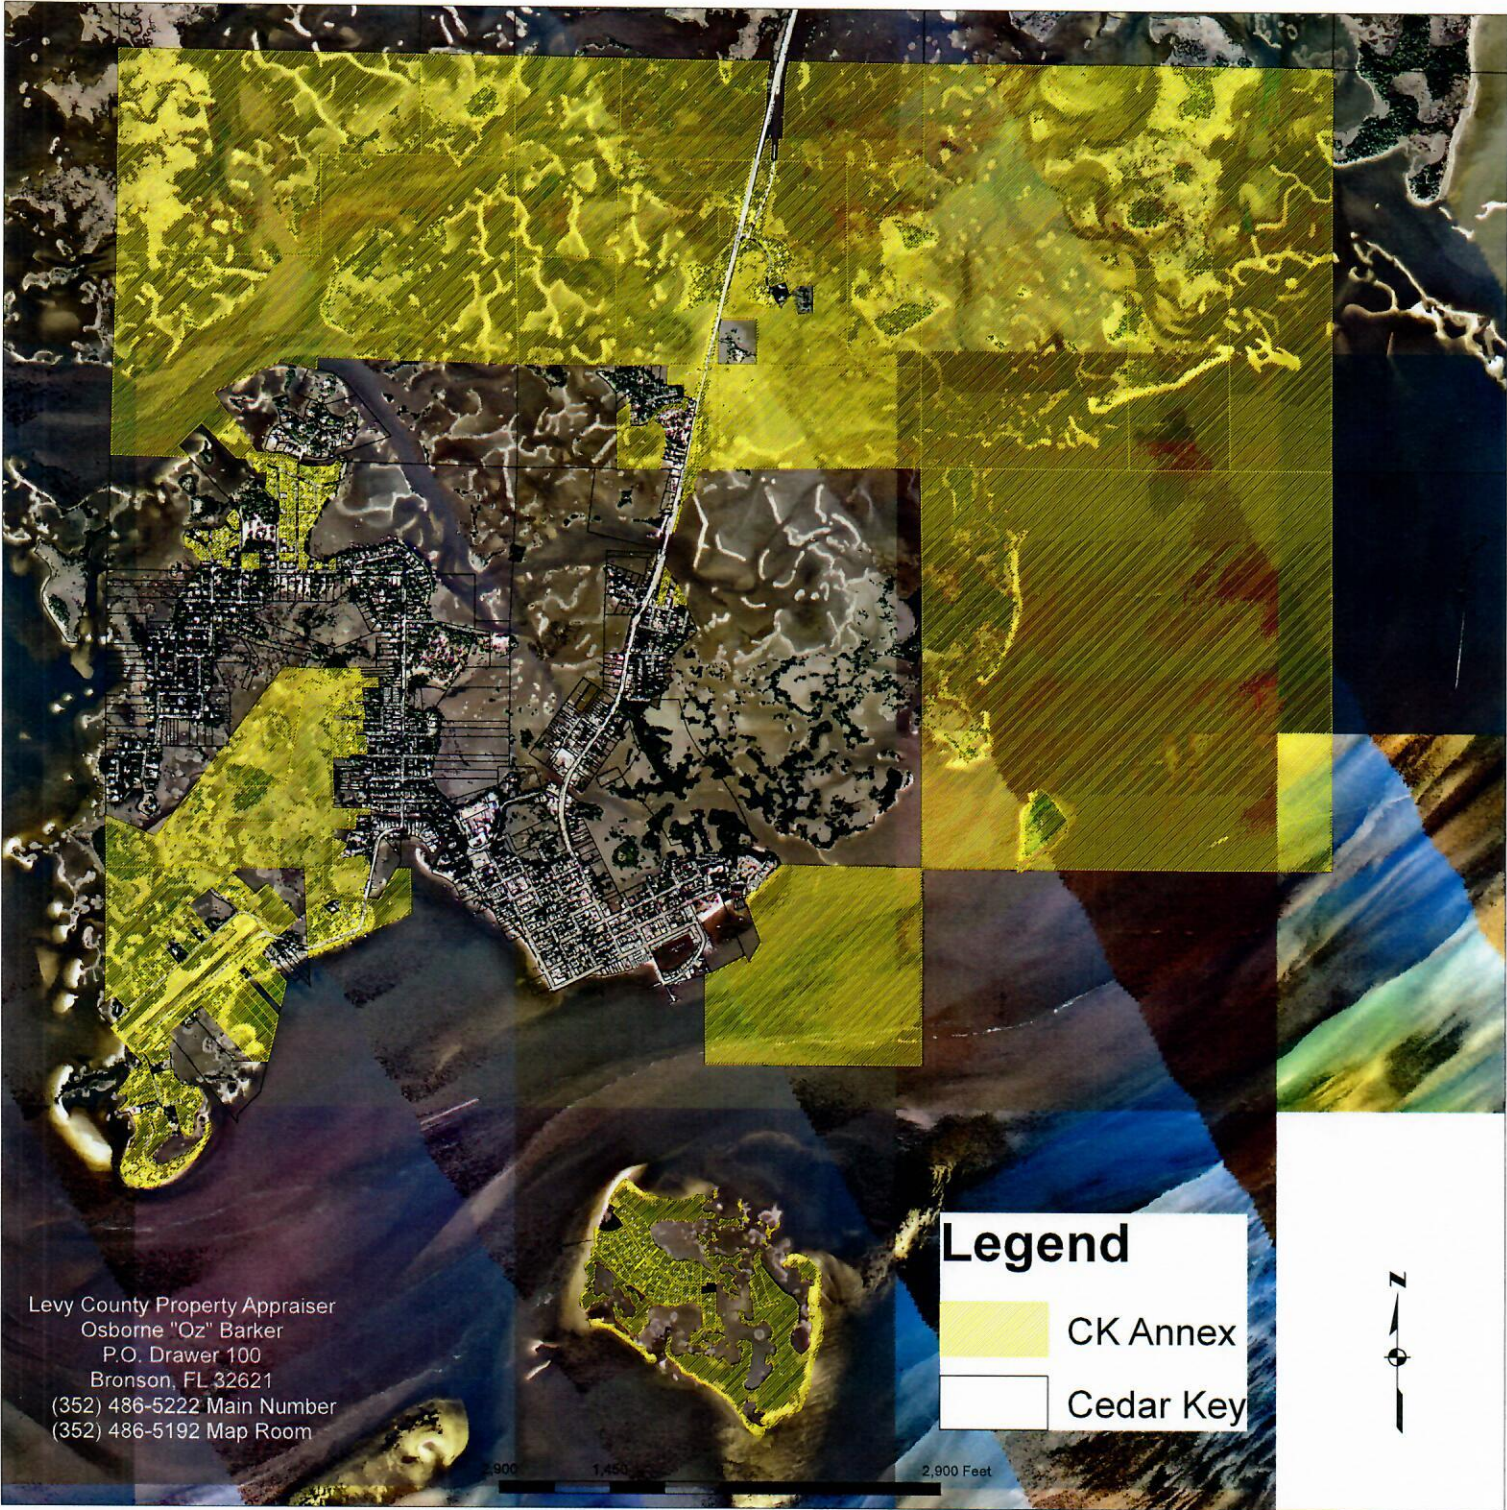

Both the City and the County have contracts with private companies for disaster cleanup services. FEMA regulations do not allow the City to extend their cleanup efforts to non-City properties.

AD VALOREM TAXATION

The City of Cedar Key receives the municipal ad valorem tax collected within its incorporated boundaries. For fiscal year 2016, the City millage rate is 5.3410 mills (\$5.34 for every \$1,000 of property valuation). According to records from the Levy County property appraiser, this area has property values of \$22,379,082. This would increase the City's ad valorem revenues by \$119,526.67 per year.

FIRE SERVICE FEES

These properties currently pay Levy County assessment for fire protection services. Since the City will be providing services, once annexed, there is no City fire assessment. The current County fire assessment rate is \$90 annually per single family dwelling unit. The non-residential County assessment is based on the square footage of the building.
